Results!! That is what I have!! Thank you

★★★★★

My coach has made a massive impact on how I approach the future. I have become stronger and smarter in my dealings with schools and therapists, thanks to amazing guidance from the team. I am now closer to my son and understand his needs on a whole new level — that is a fantastic gift. Thank you all so much for your incredible efforts. I couldn't be more satisfied with the outcome or the professional team of teachers and mentors.

Amazing program ★★★★★

As parents, who had basically no idea how to manage their son's behaviour, we have been given some wonderful strategies to assist us. Our son loves his body sock and joint compressions and is able to manage his sensory and emotional needs. I couldn't be more satisfied with Autism 360 and my coach.

Chelsea W.

REGISTERED PROVIDER

The 360 Method

Our Framework

For the next 12 weeks, you'll be working with a multidisciplinary team of Speech Pathologists, Occupational Therapists, Psychologists and Sensory Enrichment Therapists to baseline goals, design a plan and implement strategies with conviction.

Most personal therapy we've had.

Our coach is amazing and caring. It's so helpful to have someone to talk to who has a wealth of knowledge on how to help my boy and give me the skills to love him well. We have achieved dry nights, acceptance of trying some new foods, tools for discussing help for him in the classroom, decreasing and managing tantrums, a shift away from addictive computer behaviours and more.

Jess from Tasmania

FAQs

A. Isn't face-to-face therapy better than Autism 360?

Autism 360™ is evidence-based and developed in partnership with universities and research bodies. The framework relies upon *parent-led intervention approach* which believes that parents (when empowered with the right set of tools, resources and some guided support) are in the best position to help with their child's skills.

B. What age groups do you support?

We support all age groups from 2 to 17 years old. We also have inclusive programs for adults.

C. Could this be funded by the NDIS?

Autism 360™ is NDIS Registered (Provider# 4050059671). Most of our families are able to use their NDIS funding to cover all reasonable and necessary expenses for the program. As of today, we support the following budget categories.

- Capacity Building - Daily Activities
- Improved Relationships - PBSP
- Core - Daily Living Activities
