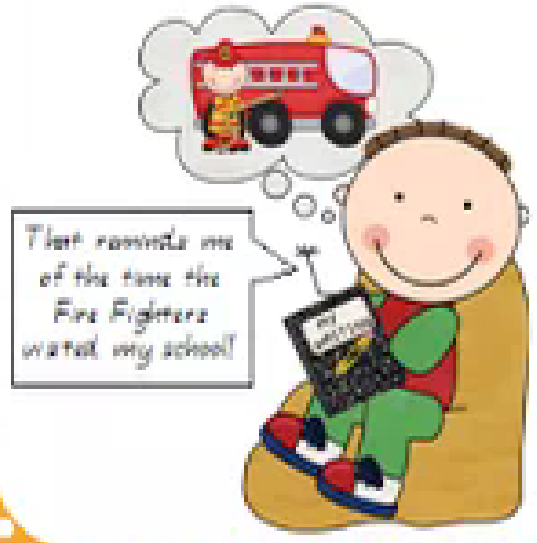
Predicting

I can use clues to guess what the text might be about or what might happen next.

Connecting

I can use what I already know and connect it to new ideas from the text.



Summarising

I can think about what the main idea is or what important things happened in the text.

Inferring

I can think about what the text tells me and add my own ideas to make an inference.

Visualising

I can create a picture in my head about what is happening in the text.

Questioning

I can ask myself questions before, during and after I read.
